**TORONTO EXCHANGE EXPERIENCE
ENDANGERED SPECIES FORM**

Dear Families,

Because we will be crossing an international border for our Toronto Exchange Experience all of the instruments that will be traveling with us must have accompanying documentation that certifies they have been inspected and no parts of them contain materials considered to be endangered species. Generally, it is the case that student level instruments do not have any of these materials. If in the process of inspection, you find that your instrument or bow does have an endangered species issue, we ask that you make arrangements to bring an alternative instrument or bow. For example, if a bow has an issue, we ask that you purchase or borrow a carbon fiber bow which will not have an issue. **WE DO NOT WANT TO TAKE ANY INSTRUMENTS ON THIS TRIP THAT HAVE ENDANGERED SPECIES ISSUES.**

Endangered Species materials are:

Elephant Ivory
Tortoiseshell
Brazilian Rosewood
Whalebone
Monitor Lizard

Mother of Pearl is not an endangered species and can be taken but should be documented if it is present.
Please take the accompanying form to an instrument dealer/appraiser of your choice for this inspection and please return this form to us by **March 2, 2024**

You may take your instrument to anyone you choose but the following list may be helpful:

Terry Carlin Violins
2016 Murray Hill Rd
Cleveland, OH 44106

Cleveland, OH 44120
Horst's Violin Shop
7650 West Pleasant Valley Rd
